**Standard of Arrangement**

While preparing subject wise bibliographic entries of the material included in National Bibliography, Dewey Decimal Classification Scheme 20th edition has been used as base and new subjects are classified according to the 22nd revised edition of Dewey Decimal Classification Scheme. For cataloging practices, Anglo American Cataloging rules 2nd edition 1988 has been followed.
Style of Presentation

Pakistan National Bibliography 2011 volume is presented in two parts. One part covers books in English and other European languages while other part is comprised of Urdu and Oriental/Regional language books. Every part is further divided into following three sections:-

a. Classified Section  
b. Index  
c. Prominent Publisher List

The arrangement of bibliographical entries in Classified Section is numerical according to classification number of each entry. However the books with same classification numbers are further arranged alphabetically. The accession number of each book/ material is given in parenthesis at the end of the entry.

The index entries are arranged alphabetically with the Classification number at the end of the entry. Some entries have the instructions of “See” to the main entry. Index creates easiness to those users/ readers of Pakistan National Bibliography who want to have access to the complete bibliographical entries through Author, Title, Subject, Translator, Compiler or Corporate Author.

A Publisher list of those publishers who have produced valuable material in this issue of Pakistan National Bibliography is prepared and arranged in alphabetical order. This list is to facilitate the users, readers consulting the bibliography to get full address of their required publisher.
